WORK EXPERIENCE

Software Engineer at Traveloka

June 2019- Current

<https://www.traveloka.com/>

Traveloka is an Indonesian unicorn company that provides airline ticketing, hotel booking services, and lifestyle products. I work as a full-stack engineer building Axes for Biz which is a public self-onboard platform of Traveloka Xperience products.

- Maintain and implement UI forms. (ReactJS, Next.js)
- Improve the landing page performance (Lighthouse audit) by 154%. (ReactJS, Chrome DevTools)
- Design and implement database models and backend services. (PostgreSQL, Java)
- Implement a CI/CD of the static web frontend. (AWS, Terraform, Next.js)

Part-time Frontend Engineer at Bukalapak

March 2018- May 2019

<https://www.bukalapak.com/>

Bukalapak is an Indonesian unicorn company and one of the leading online marketplaces in Indonesia. I worked as a part-time frontend engineer at Core Frontend team.

- Implemented an internal dashboard of Core Trust and Safety team. (Vue.js, Vuex, Vuetify, Express.js)
- Implemented a Vue UI Component Library. (Vue.js, Storybook, Jest, SASS)

Teaching Assistant at Computer Science Faculty of Universitas Indonesia

September 2017- December 2017

<https://www.cs.ui.ac.id/>

VOLUNTEER

Community Contributor at GitLab

March 2020 - Current

GitLab is an open source web-based DevOps lifecycle tool. I contribute to GitLab by fixing and implementing several features. (Vue.js, Ruby on Rails)

- The MVP of GitLab's 13.3 release.
- The Grand Prize Winner of GitLab's Q2 Hackathon 2020.
