

# Gilang Gumilar

Software Engineer

15339, Greater Jakarta Area, ID

<https://gilangmlr.gitlab.io/> [gilangmlr+resume@gmail.com](mailto:gilangmlr+resume@gmail.com) [+62 813 8658 5941](tel:+6281386585941)

[in gilangmlr](#) [github gilangmlr](#) [gitlab gilangmlr](#)

I have more than two years of demonstrated experience working as a software engineer at two unicorn startup companies based in Indonesia. I consider myself to be a life-long learner. I like to code and solve algorithmic problems with it.

## SKILLS

### Frontend

vue.js | vuex | nuxt.js | react.js | redux |  
next.js | node.js | express.js | jest |  
typescript

### Backend

python | java | ruby on rails | sql |  
django | django rest framework | flask |  
postgresql

### DevOps

docker | kubernetes | aws | terraform |  
gitlab ci/cd | gcp |  
kops (kubernetes operations)

## WORK EXPERIENCE

### Software Engineer at Traveloka

June 2019- Current

<https://www.traveloka.com/>

Traveloka is an Indonesian unicorn company that provides airline ticketing, hotel booking services, and lifestyle products. I work as a full-stack engineer building Axes for Biz which is a public self-onboard platform of Traveloka Xperience products.

- Maintain and implement UI forms. (ReactJS, Next.js)
- Improve the landing page performance (Lighthouse audit) by 154%. (ReactJS, Chrome DevTools)
- Design and implement database models and backend services. (PostgreSQL, Java)
- Implement a CI/CD of the static web frontend. (AWS, Terraform, Next.js)

### Part-time Frontend Engineer at Bukalapak

March 2018- May 2019

<https://www.bukalapak.com/>

Bukalapak is an Indonesian unicorn company and one of the leading online marketplaces in Indonesia. I worked as a part-time frontend engineer at Core Frontend team.

- Implemented an internal dashboard of Core Trust and Safety team. (Vue.js, Vuex, Vuetify, Express.js)
- Implemented a Vue UI Component Library. (Vue.js, Storybook, Jest, SASS)

### Teaching Assistant at Computer Science Faculty of Universitas Indonesia

September 2017- December 2017

<https://www.cs.ui.ac.id/>

## VOLUNTEER

### Community Contributor at GitLab

March 2020 - Current

GitLab is an open source web-based DevOps lifecycle tool. I contribute to GitLab by fixing and implementing several features.

- The second most MRs merged (57 MRs merged) of GitLab Hackathon Q2'2020. (Vue.js, Ruby on Rails)
