WORK EXPERIENCE

Software Engineer at Traveloka   **June 2019- Current**
https://www.traveloka.com/

Traveloka is an Indonesian unicorn company that provides airline ticketing, hotel booking services, and lifestyle products. I work as a full-stack engineer building Axes for Biz which is a public self-onboard platform of Traveloka Xperience products.

- Maintain and implement UI forms. (ReactJS, Next.js)
- Improved the landing page performance (Lighthouse audit) by 154%. (ReactJS, Chrome DevTools)
- Design and implement database models and backend services. (PostgreSQL, Java)
- Implement a CI/CD of the static web frontend. (AWS, Terraform, Next.js)

Part-time Front-end Engineer at Bukalapak   **March 2018- May 2019**
https://www.bukalapak.com/

Bukalapak is an Indonesian unicorn company and one of the leading online marketplaces in Indonesia. I worked as a part-time front-end engineer at Core Front-end team.

- Implemented an internal dashboard of Core Trust and Safety team. (Vue.js, VueX, Vuetify, Express.js)
- Implemented a Vue UI Component Library. (Vue.js, Storybook, Jest, SASS)

Teaching Assistant at Computer Science Faculty of Universitas Indonesia   **September 2017- December 2017**
https://www.cs.ui.ac.id/

VOLUNTEER

Community Contributor at GitLab   **March 2020 - Current**

GitLab is an open source web-based DevOps lifecycle tool. I contribute to GitLab by fixing and implementing several features.

- The second most MRs merged (57 MRs merged) of GitLab Hackathon Q2'2020. (Vue.js, Ruby on Rails)

Math Tutor at BETIS by Computer Science Faculty's Student Council of Universitas Indonesia   **April 2016 - May 2016**
